WHO AM I?

Hi, my name is Adrian Karlén and I am a 30-year-old software developer based in Stockholm. My main focus is web development and I have previous work experience with technologies such as React, .NET, TS, PHP and Python. My everyday work has consisted of developing web-based business systems, e-commerce systems, and customer portals. This has also included integration with external systems.

EXPERIENCE

2022 – on going

Full stack developer @ SPP

At SPP my team is responsible for the web catering to the private customers. Some notable projects:

- **Document archive migration** - I did a stint in another team called DigiDocs, here I worked on a major migration project as the sole developer. In total we migrated approximately 22 million documents.
- **Fund change client** - Migration from an old Angular 1 web app to a React app, rebuilding everything from scratch. Including creating a React boilerplate for the company and creating Storybook components.

TypeScript / React / .NET

2022 – on going

Software consultant @ Viati

Main employment, did work at SPP via Viati.

2019 – 2022

Software consultant @ Exsitec

Post graduation work place, I worked as a software consultant focusing on CRM and later e-commerce. Some of my work here includes:

- **Casall** - Worked with their e-commerce solution and web shop.
- **PTS** - Part of a team working with delivering a new system handling applications of monetary support for broadband expansions. This included a portal for applicants and a back-office solution with tons of automation to calculate support levels.

React / .NET / Litium / PHP / Symphony / underscore.js / Handlebars

2018
part time

Summer internship @ Siemens Industrial Turbines

Python / .NET

2016 – 2018

Event technician/DJ @ ADK Event

Small business focusing on live audio mixing and DJing.

EDUCATION

2016 – 2019

Bachelor's program in Information Systems Analysis @ Linköping University

With a focus on software development

Python / Java / C++ / Ada / React Native

LANGUAGES

Swedish - native
English - proficient

HOBBIES

I like playing board games, watching NFL and football. I also try to DJ whenever I get the chance.

NON PROFIT

During my university years I was a board member and in charge of bookings and sales of student association Forte.
